

STEERPATH

Desk Booking and COVID-19 Tools

Supercharge your office experience for higher productivity and happier employees.

Desk Booking

Mobile Calendar

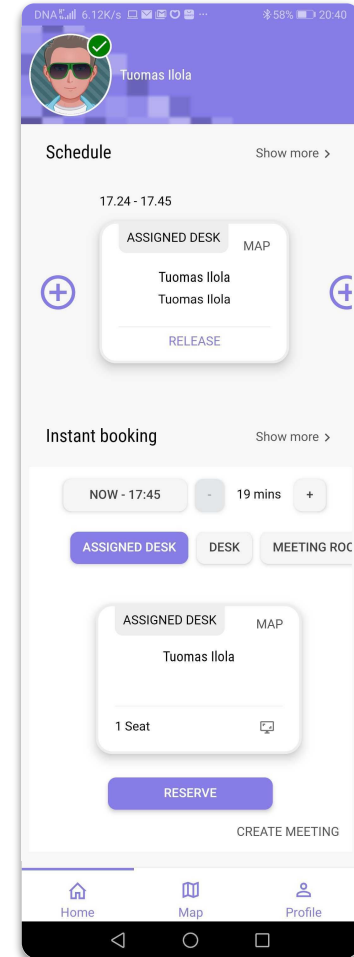

- See your next reservation and future meetings
- Auto-synchronized with MS Office 365 and G-Suite calendars

Easy Booking

- Select the workspace / resource from the view
- Set the duration of your reservation
- The app will make the reservation with one click!
- Supports both hot-desks and assigned desks

Visual Finder

- Review the workspace location on the floor plan view

Booking with floor plan map

Visible Real-time Reservation Status

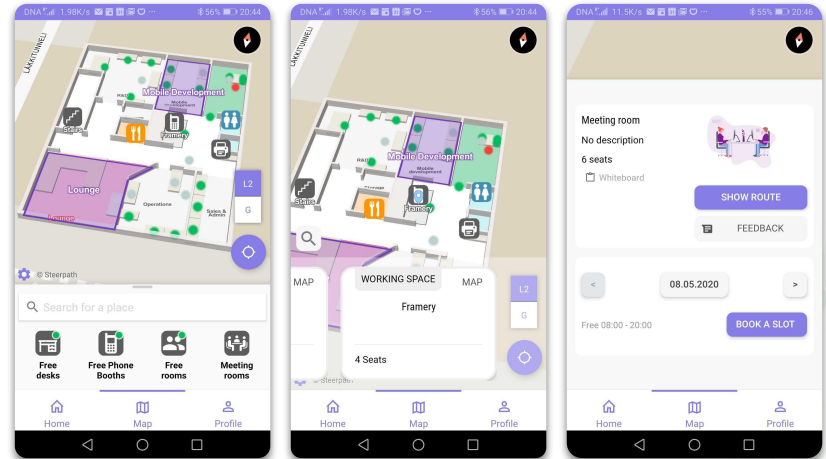

- Red desk/room = reserved, Green= vacant

Find and Book

- With floor plan view, find a suitable desk/room/resource and book it
- The selection-tool lets you compare similar bookable resources

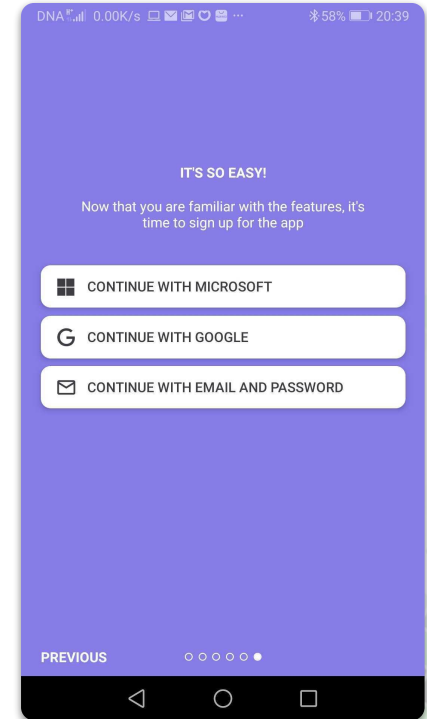

Feedback and Reporting

- Email-integration with FM & ticketing systems

Integrate with MS O365 & G Suite

- Single Sign On (SSO) to login
- Steerpath Application becomes as extended part of your current MS Office365 or G-Suite
 - Bring desks and other resources as reservable spaces
 - Adding new room and desk resources is quick and easy
 - How-to add resource in your current system, guide:

Steerpath COVID19 Tools

Planning

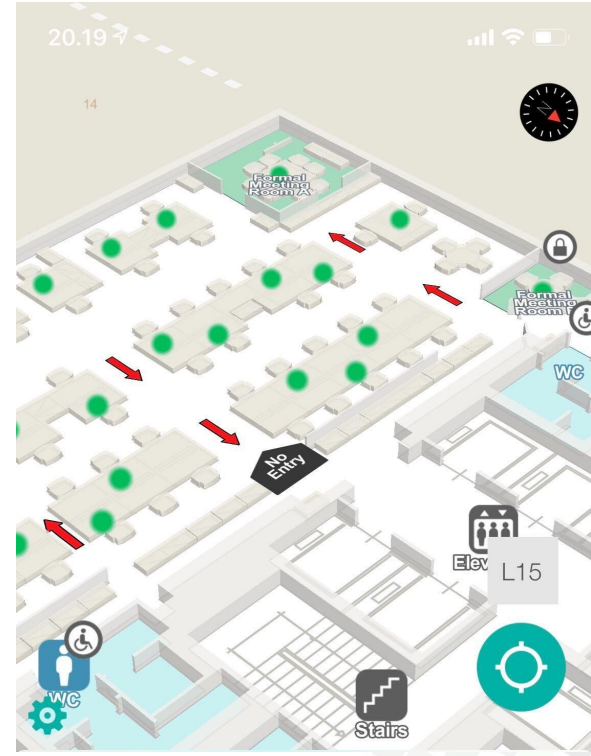

- Space planning for “return to work” – define bookable desks and acceptable walking routing inside the office walking

Safety

- Employees will get easy to read one-glance map view to the office, including booking and occupancy
- Use Map Editor to define geofencing for restricted vs. open areas

Maintenance

- Easy to maintain and update with Map Editor
- Add additional Smart-office feature when appropriate, including indoor location-sharing and wayfinding
